

# WORKSHOP IN METHODS

SOCIAL SCIENCE RESEARCH COMMONS &  
KARL F. SCHUESSLER INSTITUTE FOR SOCIAL RESEARCH

## Accessing Complex Systems: An Introduction to Agent-Based Models

### Dr. Alicia Uribe-McGuire

Assistant Professor of Political Science  
University of Illinois at Urbana-Champaign

The world we live in is complex. Individuals change, evolve, and grow as they experience the world and others around them. Agent-based and computational models can help us account for the complexity and dynamics of interactions among individuals. This seminar will include an introduction to agent-based models, explore some prominent examples, and provide a brief primer on how to approach these models.

*Alicia Uribe-McGuire is an Assistant Professor of Political Science at the University of Illinois at Urbana-Champaign. Her research interests focus on American Political Institutions with a particular emphasis on the United States Judiciary. Her research explores the intersection between the judiciary and other political actors or bodies and uses both formal and quantitative methods.*

**Friday**  
**March 6, 2020**  
**2-4:30pm**

**Social Science Research  
Commons Grand Hall**  
Woodburn Hall 200  
1100 E. 7th St., Bloomington, IN

In 2019-2020, Indiana University is celebrating its Bicentennial, and the Workshop in Methods is celebrating its tenth year providing social science research methods workshops. Join us as WIM celebrates by looking back at the workshops we've offered, and ahead to social science research methods for the future.
